TOY FAIRE

Happy 10th Birthday! Teddy Ruxpin

September 18, 1985

Teddy Ruxpin™, the world's first animated storytelling toy, manufactured and marketed by Worlds of Wonder, Inc.

©1985 ALCHEMY II, INC.
ALL RIGHTS RESERVED

Toy Faire is pleased to honor Teddy Ruxpin on his 10th birthday with this commemorative order form. This is Toy Faire's "Final" order form. ***We will continue to assist everyone until our supplies are gone***. Worlds of Wonder went out of business in 1991. Since that time, we have assisted over 50,000 customers. It has been a pleasure assisting customers from all over the United States. Many of you, our faithful customers from the beginning, have given referrals to friends and relatives. Our international customers have networked and we have assisted many wonderful folks from: England, Australia, Singapore, Japan, France, Germany, Italy, Denmark, Sweden, Norway, and even Tasmania. Yes, even the King of Norway has a Teddy Ruxpin. Teddy has touched the "hearts" and "lives" of millions young and old. He was the **"Toy of the Year"** in 1985. Since that time, no **"one"** toy has captivated the world as much as Teddy Ruxpin. It's customers and fans like you who will continue to keep Teddy going. I have had many offers to sell Toy Faire's present inventory. I have decided to **NOT** sell to anyone as future sellers would raise prices. Therefore, I will assist you as best I can. Because I am now ***"A One Man Show"***, please be patient as I try to ship twice a month, the 1st and 15th approximately. When Worlds of Wonder closed they had no idea that Teddy would continue to be so popular. You the consumer, have spoken. If you wish to voice your opinion for continuing the Original Teddy as well as Grubby and accessories with new tapes and books, please write to the creators of Teddy Ruxpin:

Alchemy II, Inc.
9311 Eton Avenue
Chatsworth, CA 91311

Its always a pleasure to hear from Teddy Ruxpin fans.

Best Wishes,

Dr. Clay

Repair Information:

Toy Faire is no longer able to repair any Worlds of Wonder products. However, I will refer you to "Electronic Surgical Experts" depending on the product to be repaired. There are very few "Surgeons" who are qualified to repair the sophisticated toys produced by Worlds of Wonder. There are no schematics or instructions for repair available due to copyright confidentiality.

Helpful Hints!!!

- Use Fresh Alkaline Batteries Only - No Rechargeables!
- Pull up on the battery tabs located in the bottom of the battery compartment. Make sure the batteries are secure and level and hit the door evenly.
- Try other tapes to make sure it is not a tape problem.
- Tap the cassette door as if "burping" it a couple of times, if the toy has not been used in some time.
- Try a standard cassette head cleaner or alcohol.

Special Notice!!!

Teddy Ruxpin, Mother Goose, Mickey Mouse, and Snoopy are the "Original" toys produced prior to 1990. Tapes listed are for these original toys using standard sized cassette tapes and "C" Alkaline batteries.

The "New Teddy Ruxpin" and "Mother Goose" use "AA" alkaline batteries and small cartridge style cassette tapes. These toys are manufactured by:
Playschool, P.O. Box 200, Pawtucket, RI 02862-0200
Phone: (800) 752-9755. Please contact Playschool for any information regarding products with the smaller style tapes and "AA" batteries.
